<sup>1</sup> GTV for a given period is calculated as the total value of all transactions which the Company facilitated on the Company’s platform and evidenced by signed contracts as of the end of the period, including the value of the existing home transactions, new home transactions, home renovation and furnishing and emerging and other services, and including transactions that are contracted but pending closing at the end of the relevant period. For the avoidance of doubt, for transactions that failed to close afterwards, the corresponding GTV represented by these transactions will be deducted accordingly.

<sup>2</sup> Adjusted net income (loss) is a non-GAAP financial measure, which is defined as net income (loss), excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from acquisitions and business cooperation agreement, (iii) changes in fair value from long term investments, loan receivables measured at fair value and contingent consideration, (iv) impairment of goodwill, intangible assets and other long-lived assets, (v) impairment of investments, and (vi) tax effects of the above non-GAAP adjustments. Please refer to the section titled “Unaudited reconciliation of GAAP and non-GAAP results” for details.

<sup>3</sup> Based on our accumulated operational experience, we have introduced the number of active agents and active stores on our platform which can better reflect the operational activeness of stores and agents on our platform.

“Active stores” as of a given date is defined as stores on our platform excluding the stores which (i) have not facilitated any housing transaction during the preceding 60 days, (ii) do not have any agent who has engaged in any critical steps in housing transactions (including but not limited to introducing new properties, attracting new customers and conducting property showings) during the preceding seven days, or (iii) have not been visited by any agent during the preceding 14 days. Number of active stores was 49,468 as of September 30, 2021.

- **Number of agents** was 402,630 as of September 30, 2022, a 21.9% decrease from one year ago. **Number of active agents**<sup>4</sup> was 372,718 as of September 30, 2022, a 20.4% decrease from one year ago.
- **Mobile monthly active users (MAU)**<sup>5</sup> averaged 42.4 million for the three months ended September 30, 2022, compared to 46.1 million in the same period of 2021.

Mr. Stanley Yongdong Peng, Chairman of the Board and Chief Executive Officer of Beike, commented, “In the third quarter of 2022, we stayed focused on driving operational excellence at each of our business lines, solidifying our competitive moats and building out our fledgling wings for the long term. Facing a challenging macroeconomic environment, we derived strong resilience from every homelinker—those who stay with us, share the same value, and always strive to enterprise. Our total GTV recovered by 15.3% quarter-over-quarter and our operating metrics recorded in all-fronts recovery driven by efficiency and productivity bolster across our businesses.”

“In the third quarter, our existing home sales outperformed the market, fueled by our strength in ACN as well as benefitting from our efforts to accelerate the development of this business through optimized empowerment of service provider and platform operations. Our new home sales maintained a healthy momentum as we further promoted our commission-in-advance model and collaborated with selected developers. At the same time, we assisted customers to identify and minimize risks associated with construction delays and contributed to healthy industry governance. Our home renovation and furnishing services are progressing on track and continuing to outpace the rest of the industry, with rapidly growing orders and improving average selling price supported by the traffic referrals from our core businesses and our full-service business model which includes home furnishing.”

---

<sup>4</sup> “Active agents” as of a given date is defined as agents on our platform excluding the agents who (i) delivered notice to leave but have not yet completed the exit procedures, (ii) have not engaged in any critical steps in housing transactions (including but not limited to introducing new properties, attracting new customers and conducting property showings) during the preceding 30 days, or (iii) have not participated in facilitating any housing transaction during the preceding three months. Number of active agents was 468,014 as of September 30, 2021.

<sup>5</sup> “Mobile monthly active users” or “mobile MAU” are to the sum of (i) the number of accounts that have accessed our platform through our Beike or Lianjia mobile app (with duplication eliminated) at least once during a month, and (ii) the number of Weixin users that have accessed our platform through our Weixin mini programs at least once during a month. Average mobile MAU for any period is calculated by dividing (i) the sum of the Company’s mobile MAUs for each month of such period, by (ii) the number of months in such period.

“We are steering our Company prudently through the current market cycle while remaining fortified to playing a better role in building up a healthy housing market,” concluded Mr. Peng.

Mr. Tao Xu, Executive Director and Chief Financial Officer of Beike, added, “During the third quarter, we achieved net revenues of RMB17.6 billion, representing a narrowed year-over-year decline of 2.8%, and a 27.7% increase compared with the second quarter of 2022. Despite the macro headwinds, our operating efficiency and profitability improved significantly in the third quarter, and we maintained a strong cash position and operating cash flow. All of these have enabled our fundamentals to remain intact and strengthened our sustainable operations amidst external challenges. These results did not come about overnight. They are the results of our rapid and resolute implementation of a series of risk-control, cost-management and efficiency-enhancing measures launched a year ago in the face of market adjustment. We’re confident that all these strengths, along with an all-out effort from everyone in the Company, will make us well positioned for the long-term sustainable growth.”

### **Third Quarter 2022 Financial Results**

#### **Net Revenues**

**Net revenues** decreased by 2.8% to RMB17.6 billion (US\$2.5 billion) in the third quarter of 2022, compared to RMB18.1 billion in the same period of 2021. The decrease was primarily attributable to the decline in total GTV. Total GTV was RMB737.1 billion (US\$103.6 billion) in the third quarter of 2022, representing a 11.3% decrease compared to RMB830.7 billion in the same period of 2021 due to the disruption on the recovery of the market caused by the resurgence of COVID-19 in certain regions and that the market for new home transactions remained weak as many real estate developers were facing liquidity and delivery challenges, which was partially offset by the recovery of the market for existing home transactions especially in top-tier cities. The smaller contraction of net revenues compared to that of GTV was primarily attributable to the higher contribution of GTV from businesses with higher monetization rate such as home renovation and furnishing.

- **Net revenues from existing home transaction services** increased by 16.6% to RMB7.2 billion (US\$1.0 billion) in the third quarter of 2022, compared to RMB6.1 billion in the same period of 2021, primarily due to a 18.7% increase in GTV of existing home transactions to RMB449.0 billion (US\$63.1 billion) in the third quarter of 2022 from RMB378.2 billion in the same period of 2021.

Among that, **(i) commission revenue** increased by 15.6% to RMB6.1 billion (US\$0.9 billion) in the third quarter of 2022 from RMB5.3 billion in the same period of 2021, primarily due to an increase in GTV of existing home transactions served by *Lianjia* stores of 18.6% to RMB219.7 billion (US\$30.9 billion) in the third quarter of 2022 from RMB185.3 billion in the same period of 2021; and

**(ii) the revenues derived from platform service, franchise service and other value-added services**, which are mostly charged to connected stores and agents on the Company's platform, increased by 23.3% to RMB1.0 billion (US\$0.1 billion) in the third quarter of 2022, from RMB0.8 billion in the same period of 2021, mainly due to a 18.9% increase of GTV of existing home transactions served by connected agents on the Company's platform to RMB229.3 billion (US\$32.2 billion) in the third quarter of 2022 from RMB192.9 billion in the same period of 2021. The higher growth rate of revenues derived from platform service, franchise service and other value-added services compared to that of the GTV of existing home transactions served by connected agents was primarily attributable to the increased penetration level of value-added services.

**Net revenues from new home transaction services** decreased by 31.3% to RMB7.8 billion (US\$1.1 billion) in the third quarter of 2022 from RMB11.3 billion in the same period of 2021, primarily due to the decrease of GTV of new home transactions of 36.2% to RMB261.5 billion (US\$36.8 billion) in the third quarter of 2022 from RMB410.1 billion in the same period of 2021. Among that, the GTV of new home transaction services completed on *Beike* platform through connected agents, dedicated sales team with the expertise on new home transaction services and other sales channels was RMB215.7 billion (US\$30.3 billion), compared to RMB337.6 billion in the same period of 2021, while the GTV of new home transactions served by *Lianjia* brand was RMB45.8 billion (US\$6.4 billion) in the third quarter of 2022, compared to RMB72.6 billion in the same period of 2021.

**Net revenues from home renovation and furnishing** were RMB1.8 billion (US\$0.3 billion) in the third quarter of 2022, compared to RMB60 million in the same period of 2021, primarily because the Company completed the acquisition of Shengdu Home Renovation Co., Ltd. ("**Shengdu**"), a full-service home renovation service provider in China, and began to consolidate its financial results during the second quarter of 2022 and the organic growth of the GTV for home renovation and furnishing business.

- **Net revenues from emerging and other services** increased by 45.8% to RMB801 million (US\$113 million) in the third quarter of 2022 from RMB550 million in the same period of 2021, primarily attributable to the increase of net revenues from rental property management services which was partially offset by the decrease of net revenues from financial services.

### **Cost of Revenues**

**Total cost of revenues** decreased by 16.3% to RMB12.8 billion (US\$1.8 billion) in the third quarter of 2022 from RMB15.3 billion in the same period of 2021.

- **Commission - split.** The Company's cost of revenues for commissions to connected agents and other sales channels was RMB5.7 billion (US\$0.8 billion) in the third quarter of 2022, compared to RMB7.6 billion in the same period of 2021, primarily due to the decrease in the GTV of new home transactions completed through connected agents and other sales channels in the third quarter of 2022 compared with the same period of 2021.
- **Commission and compensation - internal.** The Company's cost of revenues for internal commission and compensation was RMB4.6 billion (US\$0.7 billion) in the third quarter of 2022, compared to RMB6.0 billion in the same period of 2021, primarily due to the decrease in the fixed compensation costs of *Lianjia* agents, dedicated sales team with the expertise on new home transaction services and other front line operation staff along with the drop in the headcount, and the decrease in variable commission as a result of the decreased GTV of new home transactions completed through *Lianjia* agents and dedicated sales team with the expertise on new home transaction services.
- **Cost of home renovation and furnishing.** The Company's cost of revenues for home renovation and furnishing was RMB1.3 billion (US\$0.2 billion) in the third quarter of 2022, compared to RMB60 million in the same period of 2021, which was primarily attributable to the increase of net revenues from home renovation and furnishing.
- **Cost related to stores.** The Company's cost related to stores decreased by 17.6% to RMB822 million (US\$116 million) in the third quarter of 2022 compared to RMB997 million in the same period of 2021, mainly due to the decrease in the number of *Lianjia* stores along with market downtrend in the third quarter of 2022 compared to the same period of 2021.

- **Other costs.** The Company's other costs decreased by 41.7% to RMB407 million (US\$57 million) in the third quarter of 2022 from RMB699 million in the same period of 2021, mainly due to a decrease of business taxes and surcharges along with the decrease of net revenues, the decreased funding costs and provisions related to financial services and the decreased offline activities costs.

### **Gross Profit**

**Gross profit** increased by 72.8% to RMB4.8 billion (US\$0.7 billion) in the third quarter of 2022 from RMB2.8 billion in the same period of 2021. Gross margin was 27.0% in the third quarter of 2022, compared to 15.2% in the same period of 2021. The increase in gross margin was primarily due to: a) a shift of revenue mix towards the existing home transaction services with higher contribution margin than some other revenue streams, b) a higher contribution margin for existing home transaction services led by the increased net revenues from existing home transaction services and the decreased fixed compensation costs for *Lianjia* agents, c) a higher contribution margin for new home transaction services as a result of an increased number of projects with higher margins, and a relatively lower percentage of fixed compensation costs of net revenues from new home transaction services, and d) a relatively lower percentage of costs related to stores and other costs of net revenues in the third quarter of 2022 compared to the same period of 2021.

### **Income (Loss) from Operations**

**Total operating expenses** decreased by 29.9% to RMB3.5 billion (US\$0.5 billion) in the third quarter of 2022 from RMB5.1 billion in the same period of 2021.

- **General and administrative expenses** decreased by 26.4% to RMB1,777 million (US\$250 million) in the third quarter of 2022 from RMB2,412 million in the same period of 2021, mainly due to the decrease of provision for credit loss along with the decreased accounts receivable balance, and the decrease of personnel costs and overheads along with the reduction of the headcount, as well as the decrease of conferences and travel expenses, which was partially offset by the increase of share-based compensation in the third quarter of 2022 compared to the same period of 2021.

- **Sales and marketing expenses** were RMB1,258 million (US\$177 million) in the third quarter of 2022, compared to RMB1,202 million in the same period of 2021, mainly due to the increase in sales and marketing expenses for home renovation and furnishing services as the financial results of Shengdu were consolidated since the second quarter of 2022, which was partially offset by the decrease of the brand advertising and promotional marketing expenses and personnel costs for housing transaction services.
- **Research and development expenses** decreased by 51.2% to RMB509 million (US\$72 million) in the third quarter of 2022 from RMB1,043 million in the same period of 2021, mainly due to the decrease of personnel costs and share-based compensation as a result of decreased headcount in research and development personnel in the third quarter of 2022 compared to the same period of 2021.

**Income from operations** was RMB1.2 billion (US\$0.2 billion) in the third quarter of 2022, compared to loss from operations of RMB2.3 billion in the same period of 2021. **Operating margin** was 6.9% in the third quarter of 2022, compared to negative 12.7% in the same period of 2021, primarily due to a) a relatively higher gross profit margin, and b) the decrease of total operating expenses along with the relatively flat net revenues, primarily due to personnel severance and optimized resource utilization in the third quarter of 2022 compared to the same period of 2021.

**Adjusted income from operations**<sup>6</sup> was RMB2.1 billion (US\$0.3 billion) in the third quarter of 2022, compared to adjusted loss from operations of RMB1.4 billion in the same period of 2021. **Adjusted operating margin**<sup>7</sup> was 12.0% in the third quarter of 2022, compared to negative 7.9% in the same period of 2021. **Adjusted EBITDA**<sup>8</sup> was RMB2.3 billion (US\$0.3 billion) in the third quarter of 2022, compared to negative RMB550 million in the same period of 2021.

## Non-GAAP Financial Measures

The Company uses adjusted income (loss) from operations, adjusted net income (loss), adjusted net income (loss) attributable to KE Holdings Inc.'s ordinary shareholders, adjusted operating margin, adjusted EBITDA and adjusted net income (loss) per ADS attributable to KE Holdings Inc.'s ordinary shareholders, each a non-GAAP financial measure, in evaluating its operating results and for financial and operational decision-making purposes. Beike believes that these non-GAAP financial measures help identify underlying trends in the Company's business that could otherwise be distorted by the effect of certain expenses that the Company includes in its net income (loss). Beike also believes that these non-GAAP financial measures provide useful information about its results of operations, enhance the overall understanding of its past performance and future prospects and allow for greater visibility with respect to key metrics used by its management in its financial and operational decision-making. A limitation of using these non-GAAP financial measures is that these non-GAAP financial measures exclude share-based compensation expenses that have been, and will continue to be for the foreseeable future, a significant recurring expense in the Company's business.

The presentation of these non-GAAP financial measures should not be considered in isolation or construed as an alternative to gross profit, net income (loss) or any other measure of performance or as an indicator of its operating performance. Investors are encouraged to review these non-GAAP financial measures and the reconciliation to the most directly comparable GAAP measures. The non-GAAP financial measures presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting their usefulness as comparative measures to the Company's data. Beike encourages investors and others to review its financial information in its entirety and not rely on a single financial measure. **Adjusted income (loss) from operations** is defined as income (loss) from operations, excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from acquisitions and business cooperation agreement, and (iii) impairment of goodwill, intangible assets and other long-lived assets. **Adjusted operating margin** is defined as adjusted income (loss) from operations as a percentage of net revenues. **Adjusted net income (loss)** is defined as net income (loss), excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from acquisitions and business cooperation agreement, (iii) changes in fair value from long term investments, loan receivables measured at fair value and contingent consideration, (iv) impairment of goodwill, intangible assets and other long-lived assets, (v) impairment of investments, and (vi) tax effects of the above non-GAAP adjustments. **Adjusted net income (loss) attributable to KE Holdings Inc.'s ordinary shareholders** is defined as net income (loss) attributable to KE Holdings Inc.'s ordinary shareholders, excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from acquisitions and business cooperation agreement, (iii) changes in fair value from long term investments, loan receivables measured at fair value and contingent consideration, (iv) impairment of goodwill, intangible assets and other long-lived assets, (v) impairment of investments, (vi) tax effects of the above non-GAAP adjustments, and (vii) effects of non-GAAP adjustments on net income (loss) attributable to non-controlling interests shareholders. **Adjusted EBITDA** is defined as net income (loss), excluding (i) income tax expense (benefit), (ii) share-based compensation expenses, (iii) amortization of intangible assets, (iv) depreciation of property and equipment, (v) interest income, net, (vi) changes in fair value from long term investments, loan receivables measured at fair value and contingent consideration, (vii) impairment of goodwill, intangible assets and other long-lived assets, and (viii) impairment of investments. **Adjusted net income (loss) per ADS attributable to KE Holdings Inc.'s ordinary shareholders** is defined as adjusted net income (loss) attributable to KE Holdings Inc.'s ordinary shareholders divided by weighted average number of ADS outstanding during the periods used in calculating adjusted net income (loss) per ADS, basic and diluted.
